MEDICINAL.

DANGER

We seldom fear a danger that we cannot see. The danger of being run-down by a horse is a very real one to everybody, the danger of being murdered by a microbe does not trouble us. And yet the minute microbe is more dangerous than the wildest horse. The only people who can afford not to fear the microbes of disease are those who keep their blood pure and rich. These are practically immune from the attacks of most microbes.

Dr. Pierce's Golden Medical Discovery purifies and enriches the blood, and gives the body a vigorous vitality. It cures scrofula, eczema, boils, pimples and other eruptive diseases which are caused by impure blood.

"I had been troubled for about four years with eczema, or a skin disease, which at times was almost unbearable as it would itch so," writes Mr. John Larson, of 115 Powhattan St., Dallas, Texas. "I concluded to try Dr. Pierce's Golden Medical Discovery, and after using five bottles found that I was entirely cured. Please accept many thanks."

Accept no substitute for "Golden Medical Discovery." There is nothing "just as good" for diseases of the blood. Dr. Pierce's Pleasant Pellets cure constipation and its consequences.

TALE OF MUTINY.

The trial, in Liverpool, of Otto Moson, Henri Flohr, Gustav Rau and William Smith, an American, who are charged with having committed seven murders on the British bark Veronica last December, was begun yesterday. The steamship Brunswick picked up these four men and a negro cook at sea and landed them in Liverpool about six weeks ago. The negro cook made a statement then in which he said that the four men had mutinied at sea and killed the captain and six members of the crew. They afterward set fire to the bark and left her in an open boat. The cook's life had been spared he said, because the mutineers wanted him to do their cooking. The charge against Flohr was withdrawn and the Crown decided to put him on the stand. He said that while the vessel was on a voyage from the Mississippi to Montevideo the prisoners conspired to murder certain members of the crew. Rau was the ringleader. The mutineers were armed with revolvers and belaying pins, he said, and Captain Shaw, of the bark, was shot by Rau and lay in his cabin for two days in a pool of blood. He was then shot again and his body, together with those of four of the crew who had been murdered, was thrown overboard. An attempt was made to kill the cook, but his life was spared on condition that he do as he was told. Besides the captain, the first and second officers were also murdered. The men were remanded.

WHISKERS AS AN EXHIBIT.—An envelope full of whiskers was handed Judge Dunne in court in Chicago, Wednesday by the attorney for F. W. E. Steinbach, who has filed a cross-bill for divorce against Eva Steinbach. His honor was informed that the whiskers, roots and all, were extracted from the chin of Mr. Steinbach by his copartner in matrimony. Now Mr. Steinbach, who is 67 years old, would like an injunction to prevent his 33-year-old darling from pulling out any more of his hirsute adornment. He prayed that she may be restrained from assaulting and insulting him or going to his home, in Grossdale. Steinbach avers that he was 60 years old when he married Eva, who is now suing him for divorce. The cross-bill sets forth that soon after their marriage, in November, 1895, his wife boldly told him that he was too old for her, that she was ashamed to be seen with him on the street, and that she never loved him. She also imparted the information, he says, that she married him for his money, and that she was ashamed of him on account of his old age. She also asserted, Steinbach avers, that she hoped that he would very soon "die off." When she pulled his whiskers out, on different occasions, the cross-bill declares, he carefully placed the hairs in envelopes. She got the first envelope and destroyed it, he says. On one occasion, after drinking a cup of coffee at the breakfast table, Steinbach declares that he was taken ill and symptoms of poisoning were evident. A physician gave him an antidote.

FARMER KILLED FAMILY.—Adolph Krauss, a German farmer, living twenty-one miles west of St. Louis, near Bellefontaine, last night killed his wife and six children with a sledge hammer. He then knocked himself unconscious with the hammer, and at midnight was dying. It is believed Krauss suddenly became insane. He had the reputation among his neighbors of being a quiet, inoffensive, industrious farmer, and no cause but insanity has been assigned. About 7 o'clock last night John Krauss, a brother, went to Adolph's house to make a call. The lights were out, but the door was unlocked and he entered the house, and upon striking a light was horrified to discover the terrible tragedy. From all that can be learned Adolph Krauss entered the house some time yesterday afternoon armed with a sledge hammer. Without warning, he struck his wife in the head, killing her instantly. Then, seizing his first child, aged 12, he dealt a murderous blow. The other five children were killed similarly, the last being a six-months-old baby. Krauss then placed the seven bodies side by side on the floor in one room. He then seized the hammer and dealt himself a blow on the skull, which fractured it and knocked him unconscious, his body falling almost in line with those of his victims. When John Krauss discovered the tragedy he immediately notified the authorities. Bellefontaine is twenty-one miles directly west of St. Louis. Owing to its isolation, further and more complete particulars were not obtainable last night.

ROCKFELLER'S NAME HISSED.—The name of John D. Rockefeller, the man who has given millions to the University of Chicago, was publicly hissed by the students of that institution on Wednesday.
